Prepared for GitHub repository submission

1. Knowledge Base Purpose

The COMPASSIQ knowledge base grounds roadmap recommendations in real Tunisian entrepreneurial resources. It is used by the RAG layer to retrieve support programs, financing devices, administrative procedures, standards and ecosystem actors relevant to the founder's maturity stage, sector and blockers.

Current version: 2.0 · Last updated: 2026-06-20 · Total resources: 36 · Categories: accompaniment, financing, administrative, ecosystem, standards.

2. Coverage Summary

Category	Count	Coverage role
financing	10	Banks, public funding, development programs and investment support.
accompaniment	9	Incubation, mentoring, business support and founder accompaniment.
administrative	8	Legal, regulatory, social security, tax and business creation procedures.
ecosystem	6	Networks, associations, mentors and professional communities.
standards	3	Certification, quality, IP, normalization and technical standards.

Stage Coverage

Maturity stage	Resource count
structuration	24
fundraising	15
growth	14
launch_planning	13
market_validation	12
ideation	8

Sector Coverage

Sector	Resource count
all	26
agritech	6
industry	4
greentech	3
healthtech	3
services	2
fintech	2
social	1

3. Resource Schema

Field	Type	Purpose
id	string	Stable resource identifier used for citations in roadmap outputs.
name	string	Official or common name of the resource.
category	enum	accompaniment, financing, administrative, ecosystem or standards.
type	string	More specific resource type such as agency, bank, legal framework or network.
description_fr	text	French description used for retrieval and user-facing explanations.
description_ar	text	Arabic description where available, supporting bilingual access.
eligible_stages	list	Maturity stages for filtering and matching.
eligible_sectors	list	Sectors for retrieval filtering: all, agritech, fintech, healthtech, etc.
geographic_scope	string	National, regional or sector-specific scope.
url	string	Traceable source link.
contact	string	Contact channel or institution reference.
language	list	Languages supported by the resource.
tags	list	Keywords used for retrieval, filtering and UI badges.

4. Ingestion Pipeline

Step	Description	Output
1. Source collection	Collect public resources from institutional websites, ecosystem actors and program pages.	Raw URLs, names and descriptions.
2. Normalization	Convert heterogeneous sources into the JSON schema.	Consistent fields and categories.
3. Enrichment	Add eligible stages, sectors, tags, languages and contact information.	Retrieval-ready metadata.
4. Validation	Check that resources are real, relevant to Tunisia and traceable to a URL or known institution.	Verified resource list.
5. Indexing	Embed descriptions/tags and store metadata filters for RAG retrieval.	Vector index + metadata store.
6. Update process	Add new resources without changing the retrieval pipeline schema.	Updatable KB v2+.

5. Retrieval Logic

The retrieval query is generated from the shared Project Profile: maturity stage, sector, low scores, blockers, location and language. Metadata filters reduce irrelevant resources before semantic ranking. The roadmap generator can only recommend resources returned from this indexed knowledge base.

Profile signal	Retrieval effect
Maturity stage	Filters resources by eligible_stages.
Sector	Boosts sector-specific resources such as AgriTech, FinTech or HealthTech.
Low score / blocker	Adds tags such as validation, financing, legal, scalability or green.
Language	Prioritizes French/Arabic resources when available.
Roadmap horizon	Immediate actions prioritize accompaniment/validation; medium-term can include financing and standards.

6. Example Grounded Roadmap Links

Scenario	Triggered resources	Why they match
AgriTech founder with validation gap	kb_024 Cap Bon AgriTech Hub; kb_028 Mobidoo	Mentoring and AgriTech validation support.
Agricultural structuration need	kb_025 APIA; kb_036 CTAB	Agricultural investment support and organic agriculture standards.
Financing preparation after traction	kb_032 Green Tunisia Fund; kb_002 BFPME	Green/agricultural financing and PME financing once evidence improves.
Legal/administrative setup	kb_003 Startup Act; kb_013 Guichet Unique; kb_014 CNSS	Startup legal status, creation procedures and social security obligations.

7. Resource Index

ID	Name	Category	Stages / sectors
kb_001	APII - Agence de Promotion de l'Industrie et de l'Innovation	accompagnement	Stages: structuration, fundraising, launch_planning Sectors: industry, services, all
kb_002	BFPME - Banque de Financement des Petites et Moyennes Entreprises	financing	Stages: fundraising, launch_planning, growth Sectors: all
kb_003	Startup Act Tunisie	administrative	Stages: structuration, fundraising, launch_planning Sectors: all
kb_004	ANPE - Agence Nationale pour l'Emploi et le Travail Indépendant	accompagnement	Stages: ideation, market_validation, structuration Sectors: all
kb_005	BTS - Banque Tunisienne de Solidarité	financing	Stages: ideation, market_validation, structuration Sectors: all
kb_006	UNDP Tunisia - Programme d'Accélération Entrepreneuriale	financing	Stages: structuration, fundraising, launch_planning, growth Sectors: greentech, agritech, healthtech, social
kb_007	AFD - Agence Française de Développement (Tunisie)	financing	Stages: fundraising, launch_planning, growth Sectors: greentech, agritech, industry
kb_008	EU4Business / Programmes UE en Tunisie	financing	Stages: structuration, fundraising, growth Sectors: all
kb_009	Flat6Labs Tunis	accompagnement	Stages: market_validation, structuration, fundraising Sectors: all
kb_010	Wiki Start Up	accompagnement	Stages: ideation, market_validation, structuration Sectors: all
kb_011	Smart Capital	financing	Stages: fundraising, growth Sectors: all
kb_012	Carthage Business Angels	financing	Stages: fundraising Sectors: all
kb_013	Centre d'Affaires - Création d'Entreprise en Ligne (Guichet Unique)	administrative	Stages: structuration Sectors: all
kb_014	CNSS - Caisse Nationale de Sécurité Sociale	administrative	Stages: structuration, launch_planning Sectors: all
kb_015	Direction Générale des Impôts (Régime Fiscal Startup)	administrative	Stages: structuration, fundraising Sectors: all
kb_016	IACE - Institut Arabe des Chefs d'Entreprises	ecosystem	Stages: growth Sectors: all
kb_017	CONNECT - Confédération des Entreprises Citoyennes de Tunisie	ecosystem	Stages: growth Sectors: all
kb_018	UTICA - Union Tunisienne de l'Industrie, du Commerce et de l'Artisanat	ecosystem	Stages: structuration, growth Sectors: all

ID	Name	Category	Stages / sectors
kb_019	IEEE Tunisia Section	ecosystem	Stages: ideation, market_validation Sectors: industry, fintech, healthtech
kb_020	GIZ Tunisie - Programme Employabilité et Entrepreneuriat	accompagnement	Stages: ideation, market_validation, structuration Sectors: all
kb_021	Banque Mondiale - Programme Tunisia Innovation	financing	Stages: structuration, fundraising Sectors: all
kb_022	INNORPI - Institut National de la Normalisation et de la Propriété Industrielle	standards	Stages: structuration, launch_planning Sectors: all
kb_023	ISO 9001 / Certification Qualité (via cabinets agréés tunisiens)	standards	Stages: growth Sectors: industry, services
kb_024	Cap Bon AgriTech Hub	accompagnement	Stages: market_validation, structuration Sectors: agritech
kb_025	APIA - Agence de Promotion des Investissements Agricoles	accompagnement	Stages: structuration, fundraising, launch_planning Sectors: agritech
kb_026	Tunisian FinTech Network (BCT Sandbox)	administrative	Stages: market_validation, structuration Sectors: fintech
kb_027	Tunisian Health Innovation Network	ecosystem	Stages: market_validation, structuration Sectors: healthtech
kb_028	Mobidoo / Réseau Mentors Tunisie	ecosystem	Stages: ideation, market_validation, structuration Sectors: all
kb_029	Programme Wallah We Can (Coaching Entrepreneurial Jeunes)	accompagnement	Stages: ideation, market_validation Sectors: all
kb_030	Fondation Konrad Adenauer Tunisie - Programme Entrepreneuriat	accompagnement	Stages: ideation, market_validation, structuration Sectors: all
kb_031	GAFI - Guichet Unique des Investisseurs Étrangers	administrative	Stages: fundraising, launch_planning, growth Sectors: all
kb_032	Green Tunisia Fund (Initiative Climat & Entrepreneuriat Vert)	financing	Stages: structuration, fundraising, growth Sectors: greentech, agritech
kb_033	CEPEX - Centre de Promotion des Exportations	administrative	Stages: launch_planning, growth Sectors: all
kb_034	INPDP - Instance Nationale de Protection des Données Personnelles	administrative	Stages: structuration, launch_planning, growth Sectors: all
kb_035	BIAT - Pack Startup	financing	Stages: fundraising, launch_planning, growth Sectors: all
kb_036	CTAB - Centre Technique de l'Agriculture Biologique	standards	Stages: structuration, launch_planning Sectors: agritech

8. Coverage Notes and Known Limits

- The current KB contains 36 resources and already satisfies the 30+ real-resource requirement.
- Coverage is strongest for general entrepreneurship, financing and administrative resources.
- Sector-specific coverage exists for AgriTech, FinTech, HealthTech and GreenTech, but should be expanded during pilot.
- URLs and contacts should be periodically re-verified before production deployment.
- Future versions should add more Arabic-native resources and regional ecosystem actors outside Tunis.

9. Update Procedure

Action	Rule
Add a resource	Assign a new stable id, fill all required fields, add tags/stages/sectors, verify URL.

Action	Rule
Modify a resource	Keep the same id, update changelog and last_updated date.
Remove stale resource	Mark deprecated in changelog before deletion to preserve citation history.
Re-index	Run embedding/index update; no schema rebuild should be required.
